(A) Vital Data:

Pulse (Naadi): _____ Temperature(Tapman): _____

BP(Raktachapa): _____ Respiration (Swasana): _____

Level of consciousness (Sangna):

(Oriented/Disoriented/Stupor/Coma/Death): _____

(B) General Examination of Patient(Samanya Pariksha):

Body Built (Samsthana): _____ Lips(Oshtha): _____

Nail (Nakha): _____ Tongue (Jhiva): _____

Ear (Karna): _____

Skin (Tvaka): _____ Eye(Netra): _____

Nose (Nasa): _____

(C) Local Examination(Sthanik Pariksha):

Inspection:

Palpation:

Percussion:

Auscultation:

Regional Lymph Node Examination:

Specific Examinations:

(D) Systemic Examination(Sansthanik parikshan):

G.I.:

CVS:

RS:

GUS:

NS:

Endocrine System:

Others:

- (D) Special Investigations (Vishesha Parikshan):
1. Laboratory Investigations(Prayogashaliya parikshana) (Blood, Urine, Biopsy etc.):
 2. Radiology Investigation (X-Ray, USG, CT scan, Doppler Study, MRI, ECG, etc.):

Disease Examination (Vyadhi Parikshan):

Etiology(Nidana):

Prodromal Features(Purvarupa):

Clinical Features(Rupa):

Therapeutic Test (Upshayaanupshaya):

Pathological Factors(Samprapti Ghatak):

Vitiated Hummer(Dosha): _____ VitiateTissue(Dushya): _____
Site of Disease(Sthana): _____

Type of Disease(Vyadhibheda):

Provisional Diagnosis (Sambhavita vyadhi):

Differential Diagnosis(Sapeksha nidaan):

Final Diagnosis(Vyadhi vinishchaya):

Prognosis: Curable / Surgically Curable / Incurable

Treatment: Palliative/ Surgical/Parasurgical:

Date	Symptoms	Treatment

Preoperative Note (Poorvakarma):

Operative Note (Pradhanakarma):

Postoperative Note (Pashchatkarma):

Complications(Upadrava):

Post operative regimen(Rakshavidhana):

Pathya:

Apathya:

Result: (Cured /Symptomatic relief /Referred /LAMA/Died)

Name & Sign of Student
